

Join the SIMIENT team

## **Dynamics CRM/.Net Developer**

Simient is a Microsoft Gold Partner known for solving complex business problems for our many clients through high quality information management solutions. We work in industries that make a difference and with clients who are passionate - we feel the same about the services we deliver.

Simient values client and staff feedback and has a continual focus on challenging and supporting our people to excel. Our people are our strength. Simient is a values-driven organisation. Our people live the values of the company in every aspect of our work.

**We are looking for an experienced and passionate Developer to join our Darwin team.** In this role, you will utilize your expertise to support, design and develop Dynamics CRM and .NET solutions to the delight of our clients.

This is a hands-on role and you must have a good understanding of software development and trends in the latest Microsoft technologies. There are opportunities to move in to a development lead role through demonstrating your ability and experience.

You will work across multiple projects and your responsibilities will include:

- Provide development and support for new and existing Dynamics CRM and .NET customers, including plugins, javascript and webresources
- Provide advice for the customer based on your expert product knowledge.

**Simient**  
Brisbane, Darwin, Sydney

Gold Application Development  
Silver Customer Relationship Management  
Silver Collaboration and Content

- Write functional and technical specifications and other supporting documentation
- Configure and customise software according to specifications.
- Assist with system, integration and user acceptance testing.
- Contribute to Pre-Sales activities

The successful applicant will come to us with:

- A University qualification in IT and preferably relevant Microsoft Certifications
- A minimum of 2 years' experience in Dynamics CRM, including plugin and web resource development, and experience using ClickDimensions highly desired.
- 3 - 5 years solid .NET experience including C#, ASP.NET, web services, and/or Win forms with SQL Server databases.
- Exposure to other technologies (such as ASP.NET MVC, WebAPI, AngularJS) or other Microsoft Server products (such as BizTalk, SharePoint, SQL Server) will be an advantage
- Experience in the health, tourism, and justice sectors is preferred
- Experience in a consulting capacity will be well regarded

Simient offers a great remuneration package and benefits including:

- The opportunity to work across multiple projects.
- Feel supported working in a diverse and inclusive culture.
- Simient offers five full days of training per annum. Become Microsoft Certified at our expense and we will pay you a bonus as well if you're successful.
- At Simient, we work flexibly to support the needs of our people and the needs of our clients.

- Your professional goals and career ambitions are important to us. Simient's Career Development Framework is designed to assist in making those possible.

We are always looking for great people to join the SIMIENT team. Apply directly to [jobs@simient.com](mailto:jobs@simient.com) or check out our active positions at [www.simient.com](http://www.simient.com)
