

## Full/Part Time SharePoint Developer

Simient is looking for a passionate Microsoft SharePoint Consultant to join our Brisbane team in either a full or part time capacity to support and maintain solutions on the Microsoft SharePoint platform. This is a customer facing role and time will be split between client site and office based activities.

Your responsibilities will include:

- Install, develop, configure, deploy and support SharePoint based implementations
- Work on a range of projects, including Intranets, content management and collaboration, records management, HR and meeting management solutions and SharePoint upgrades
- Produce technical and support documentation
- Support clients, on-site and off-site; triaging and diagnosing issues and changes
- Work effectively on your own, or as part of a team

The successful applicant will come to us with:

- Experience in configuring and developing solutions in SharePoint 2010, 2013 and SharePoint Online
- Experience with SharePoint administration
- Solid C# .NET experience
- Experience in the following technologies/products, or a willingness to learn, would be advantageous:
  - Collabware
  - Lanteria HR

Join the team

- Dynamics CRM
- ASP.NET MVC and other associated web technologies
- Excellent written and verbal communication skills
- Excellent problem-solving skills
- Self-motivated, and able to work with minimal supervision

At Simient you will:

- Feel supported working in a diverse and inclusive culture
- Work with passionate people that care about providing real value to the community
- Have opportunities to work across multiple projects with multiple clients
- Be offered training and development opportunities across the business
- Be able to work flexibly taking in the needs of our clients.

Applicants must have the right to work in Australia.
